

WESDOME GOLD MINES LTD.

ENVIRONMENTAL POLICY

Wesdome Gold Mines Ltd (“Wesdome” or the “Company”) recognizes the importance of advancing its operations and the development of our mines while embracing the values of environmental stewardship and protection. Management will communicate the Company’s environmental commitments to its employees and suppliers, to ensure that everyone conducts their activities in an environmentally responsible and conscientious manner.

To achieve our goals, Wesdome commits to do the following:

- To respect the laws and regulations in effect.
- To put in place an effective environmental management and monitoring system to minimize and mitigate the risks to the environment.
- To reduce, reuse and recycle the production of residual materials, and to ensure the proper disposal of all waste.
- To establish an emergency environmental response plan that will limit the potential effects of an unplanned event.
- To rehabilitate sites in accordance with the laws and regulations in effect, and to do so within the required timeframe as per the closure plan.
- To continuously evaluate the environmental effects of our projects.
- To maintain clear, transparent and multi-directional relationships with local communities, government, and other relevant stakeholders.
- To evaluate the Company’s environmental performance and ensure that it is continuously improved.
