

Energy Manager

COMPANY INFORMATION

Wesdome Gold Mines has had over 30 years of continuous gold mining operations in Canada. The Company is 100% Canadian focused with a pipeline of projects in various stages of development. The Company's strategy is to build Canada's next intermediate gold producer, producing 200,000+ ounces from two mines in Ontario and Quebec. The Eagle River Complex in Wawa, Ontario is currently producing gold the Eagle River Underground Mine. Wesdome started production in December 2022 at the Kiena Complex in Val d'Or, Quebec. The Company trades on the Toronto Stock Exchange under the symbol "WDO".

SUMMARY

Reporting to the Electrical Superintendent, the Energy Manager will identify, review, report and implement energy usage and savings opportunities at our operations. The Energy Manager will be the main contact between the Company and IESO with respect to implementing and tracking of energy savings management programs including creating energy management policy, programs and action plans. The incumbent future candidate will also ensure the implementation of the currently enrolled NEAP program remains on track as required to achieve optimal energy savings.

RESPONSIBILITIES
