

Senior Mill Metallurgist

COMPANY INFORMATION

Wesdome Gold Mines has had over 30 years of continuous gold mining operations in Canada. The Company is 100% Canadian focused with a pipeline of projects in various stages of development. The Company's strategy is to build Canada's next intermediate gold producer, producing 200,000+ ounces from two mines in Ontario and Quebec. The Eagle River Complex in Wawa, Ontario is currently producing gold at the Eagle River Underground Mine. Wesdome started production at the Kiena Complex in Val d'Or, Quebec in December 2022. The Company trades on the Toronto Stock Exchange under the symbol "WDO".

SUMMARY

Reporting to the Mill Superintendent, the Senior Metallurgist will play a significant role in promoting the development of technical expertise within the mill operations, as well as promoting Health and Safety in the workplace and compliance with company policies, working with the mill operations, maintenance, and electrical departments to ensure smooth and efficient process operation, and identifying and promoting continuous plant improvements to achieve and surpass metallurgical targets; and reduce operating costs.
